ENVIRONMENTAL POLICY OF THE COLLEGE: -

SIES (Nerul) College of Arts, Science and Commerce is committed to create Green consciousness among students and other stakeholders in the society. College protects its own environment with green campus initiatives and keeps campus environment friendly.

The College advocates an educational policy that includes maintaining sustainable environment through different initiatives. To achieve this goal, College has framed a green campus policy. All the stakeholders are encouraged to participate towards achieving objectives of green campus policy.

Our Environmental Policy is:

- i. To create awareness regarding environmental policy amongst all the stakeholders.
- ii. To encourage student to develop solutions for environment conservation.
- iii. To Use Solar Energy on College Campus by installing Solar Lamps and Solar Panels.
- iv. To achieve energy conservation by promoting use of Light Emitting Diode (LED) lights in our campus.
- v. To encourage students and staff members to minimize electricity consumption.
- vi. To keep check on drinking water quality to provide safe drinking water in college campus.
- vii. To adopt various methods for water conservation such as rainwater harvesting, water recycling etc.

Guidelines for Ban on Plastic Use

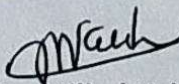

Plastic pollution and plastic waste management currently have become the biggest environmental concern. Plastic pollution creating adverse impact on soil, water, biodiversity, health and well-being of humans at large. Due to convenience of plastic and plastic goods there is increase in production and consumption of the plastic. Excess-consumption of plastic combined with limited waste disposal systems has become a challenge to the urban waste disposal systems. Government already have taken initiative to reduce and eliminate hazards of plastic pollution.

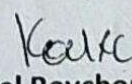

Single used plastic water bottles, plastic straws, food packaging, stationary packaging, plastic folders, flex banners etc; are the sources of plastic waste in college campus. Inappropriate solid waste management may leads to environmental and sanitation issues in the college campus. To avoid deterioration in environment quality within college campus and community due to plastic waste, IQAC, NSS unit and Conservation club of SIES (Nerul) College of Arts Science & Commerce has taken initiative and formulated Guidelines for Ban on Plastic Use.

SIES (Nerul) College of Arts Science & Commerce adopting policy and practices towards cleaner and plastic free campus as an institutional responsibility to conserve our environment.

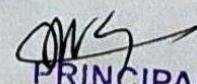

Guidelines

1. To create awareness regarding ban plastic policy amongst the students and other stakeholders.
2. To carry out awareness drives and sensitization workshops on the harmful impacts of single use plastics.
3. To ensure plastic free campus usage of single use plastic should be stop by the students and other stakeholders of the institution.
4. Encourage students to use environment friendly alternatives like cloth bag, reusable/metal water bottles, etc.
5. To use Dry and Wet dust bins in college campus so as to segregate waste.
6. To have a strategy for E- waste management.
7. Encourage students to carry out similar campaigns at community level.
